# We learn something new

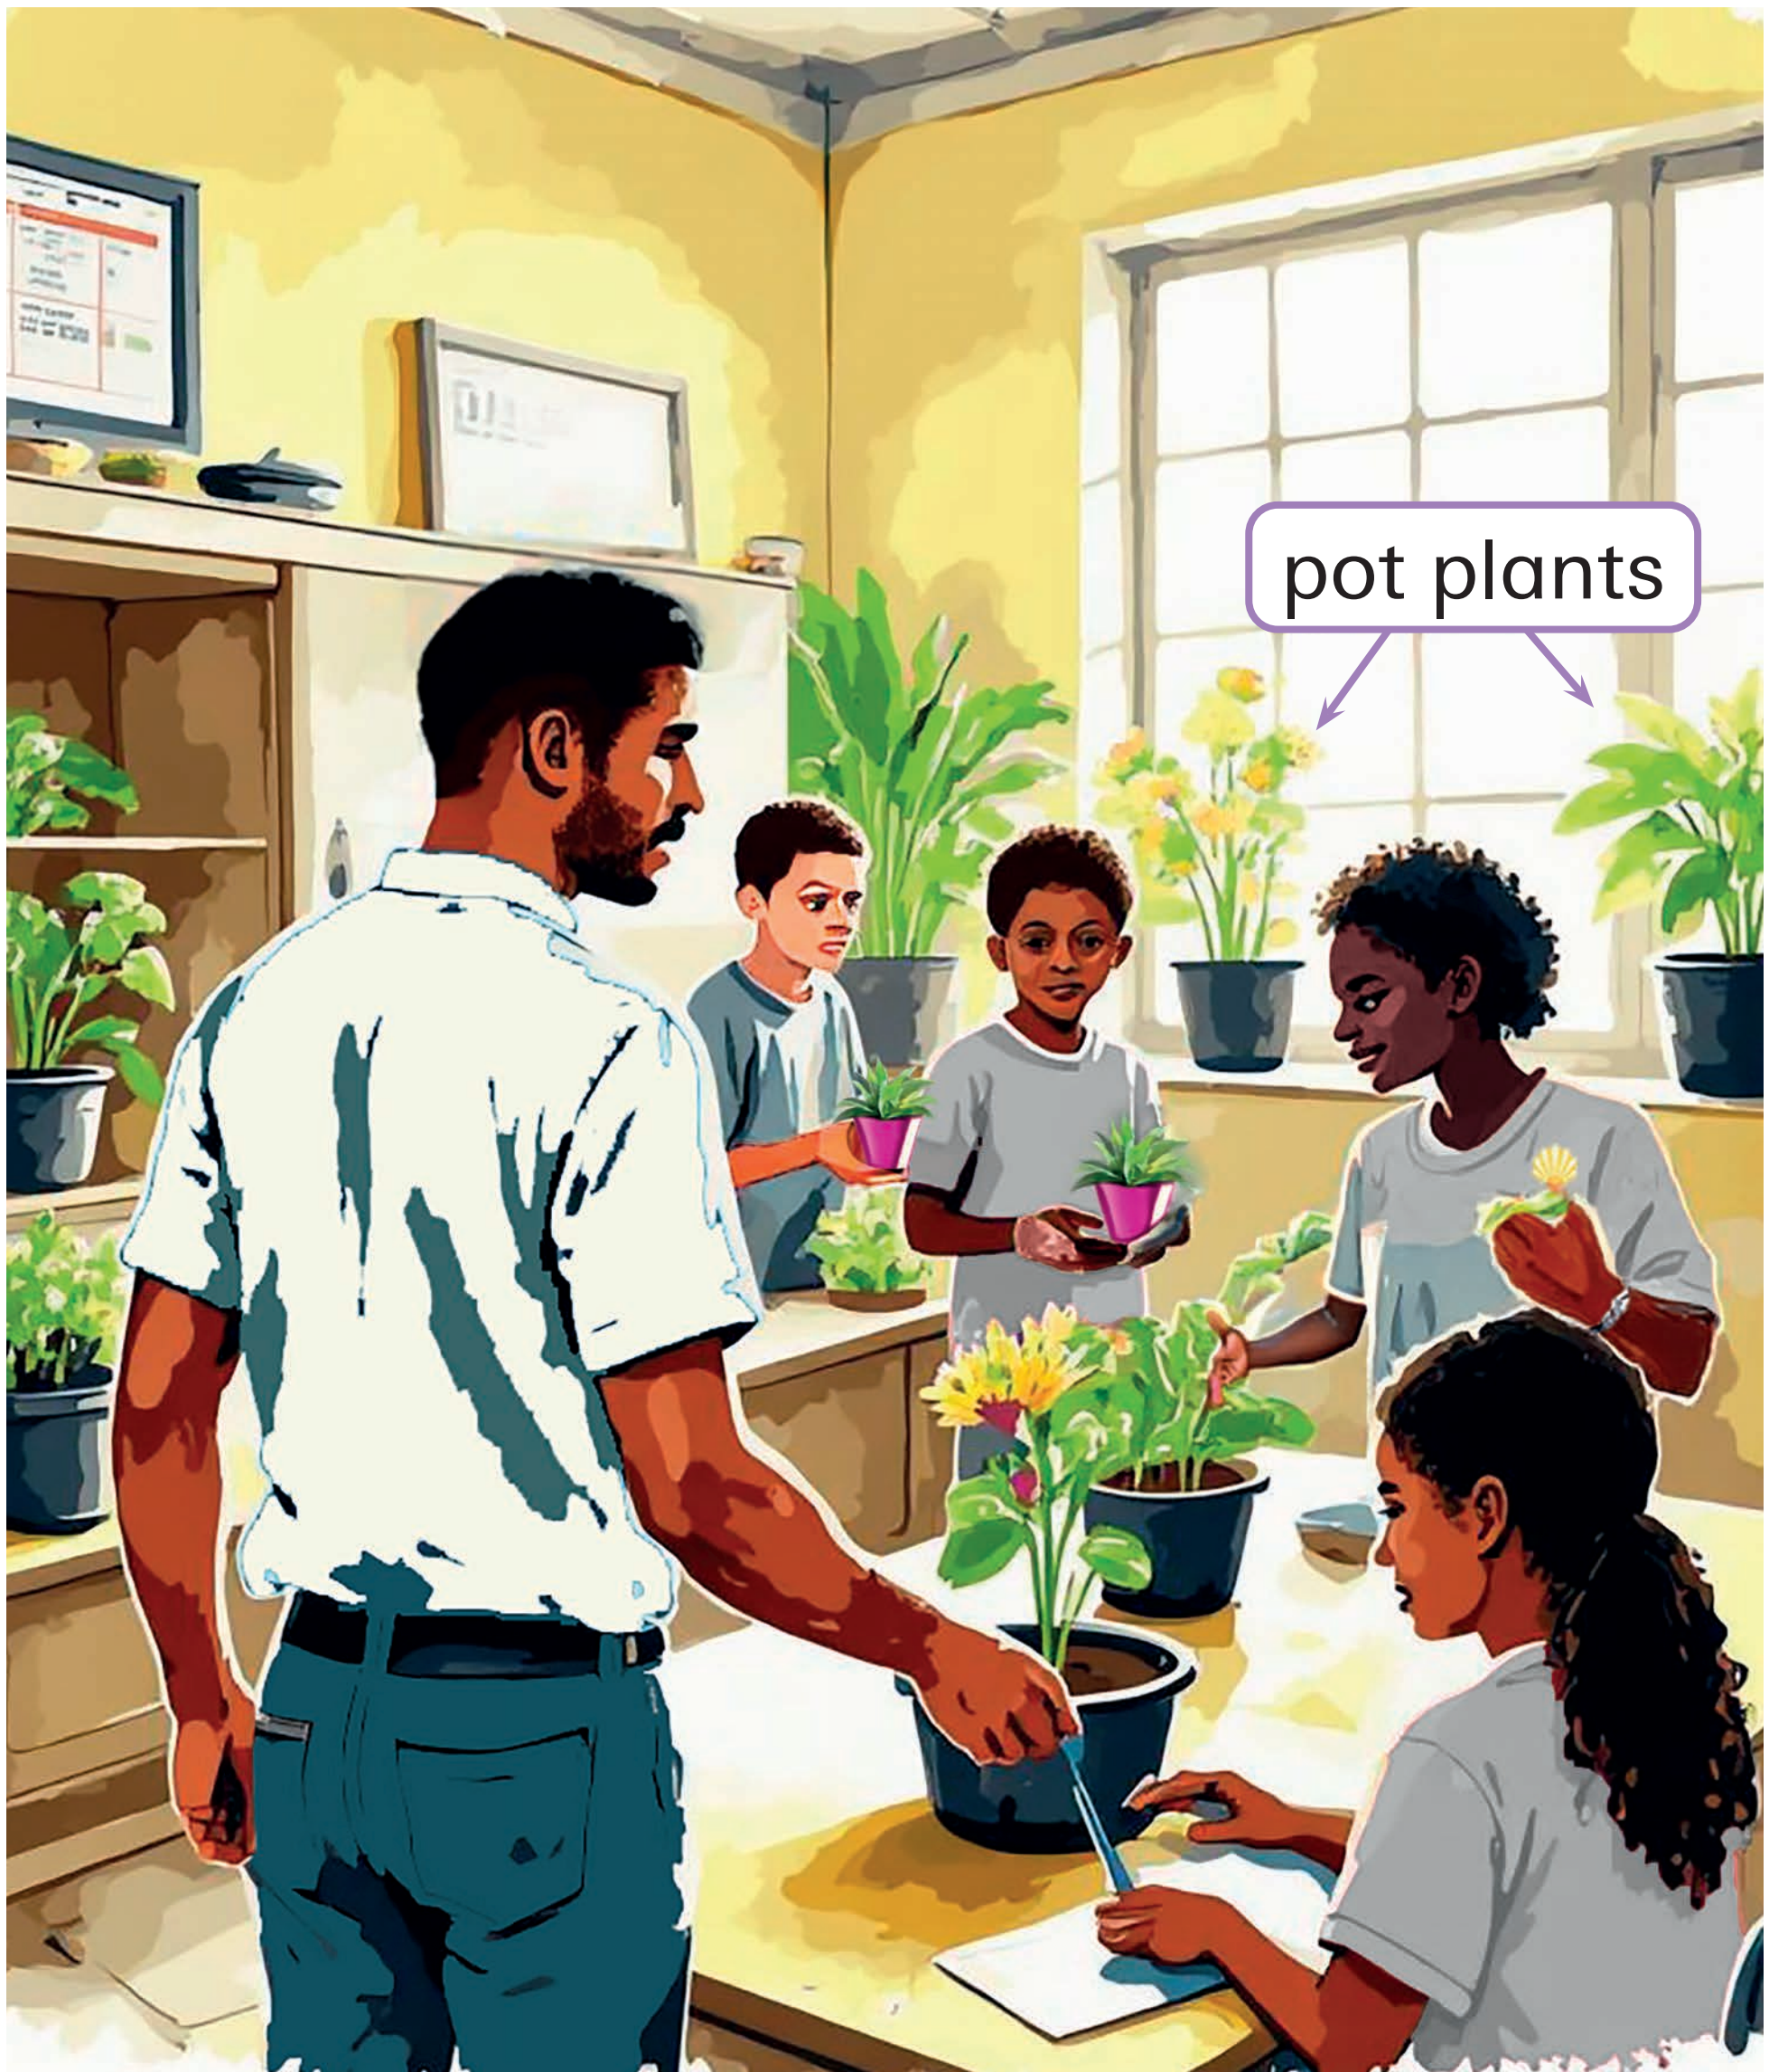

## Pre-reading questions

1. Look at the title. What do you think this story is about?
2. Where does the story take place?

What makes plants grow? We want to know.

The learners have some plants.  
We call them pot plants.

Some plants will get water and sun. Other plants will get sun only.

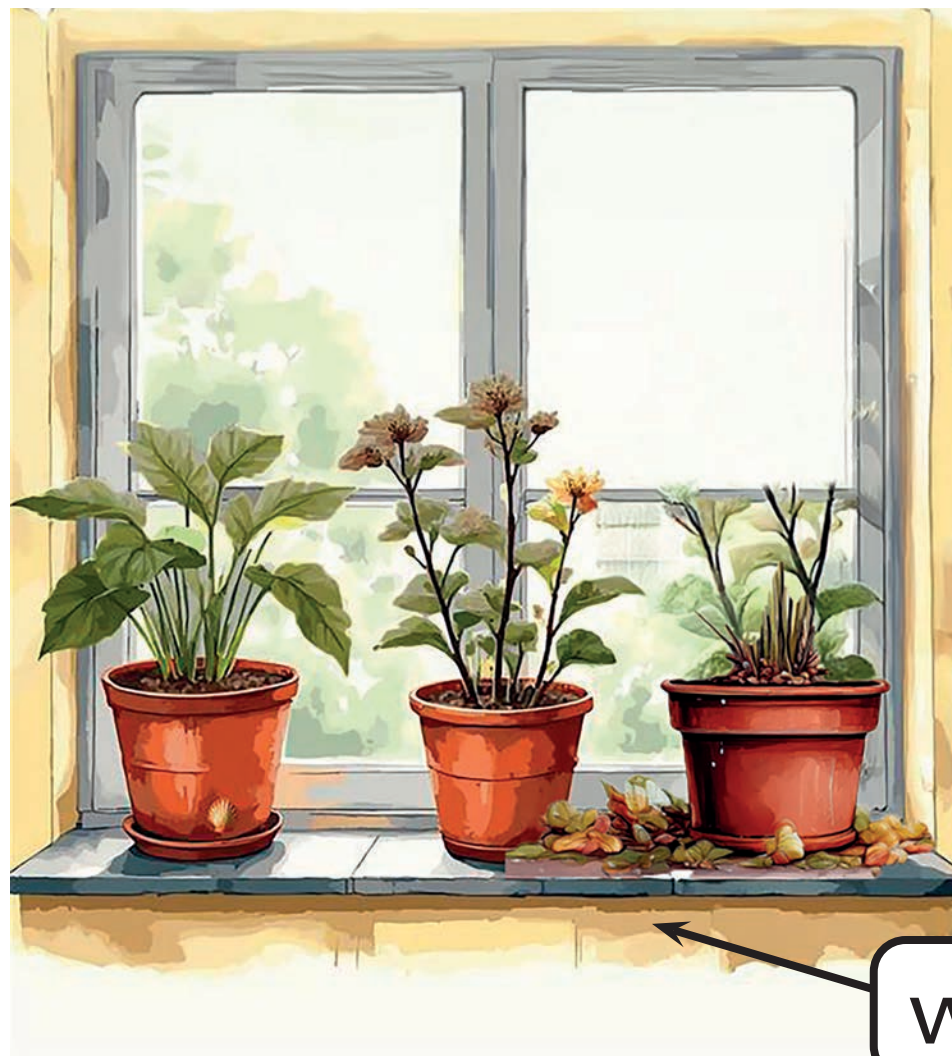

What will happen to the plants that only get sun?

Put the pots here.

The plants that do not get water begin to look dry.

The plants that got water have green leaves. They look good. One plant is very tall.

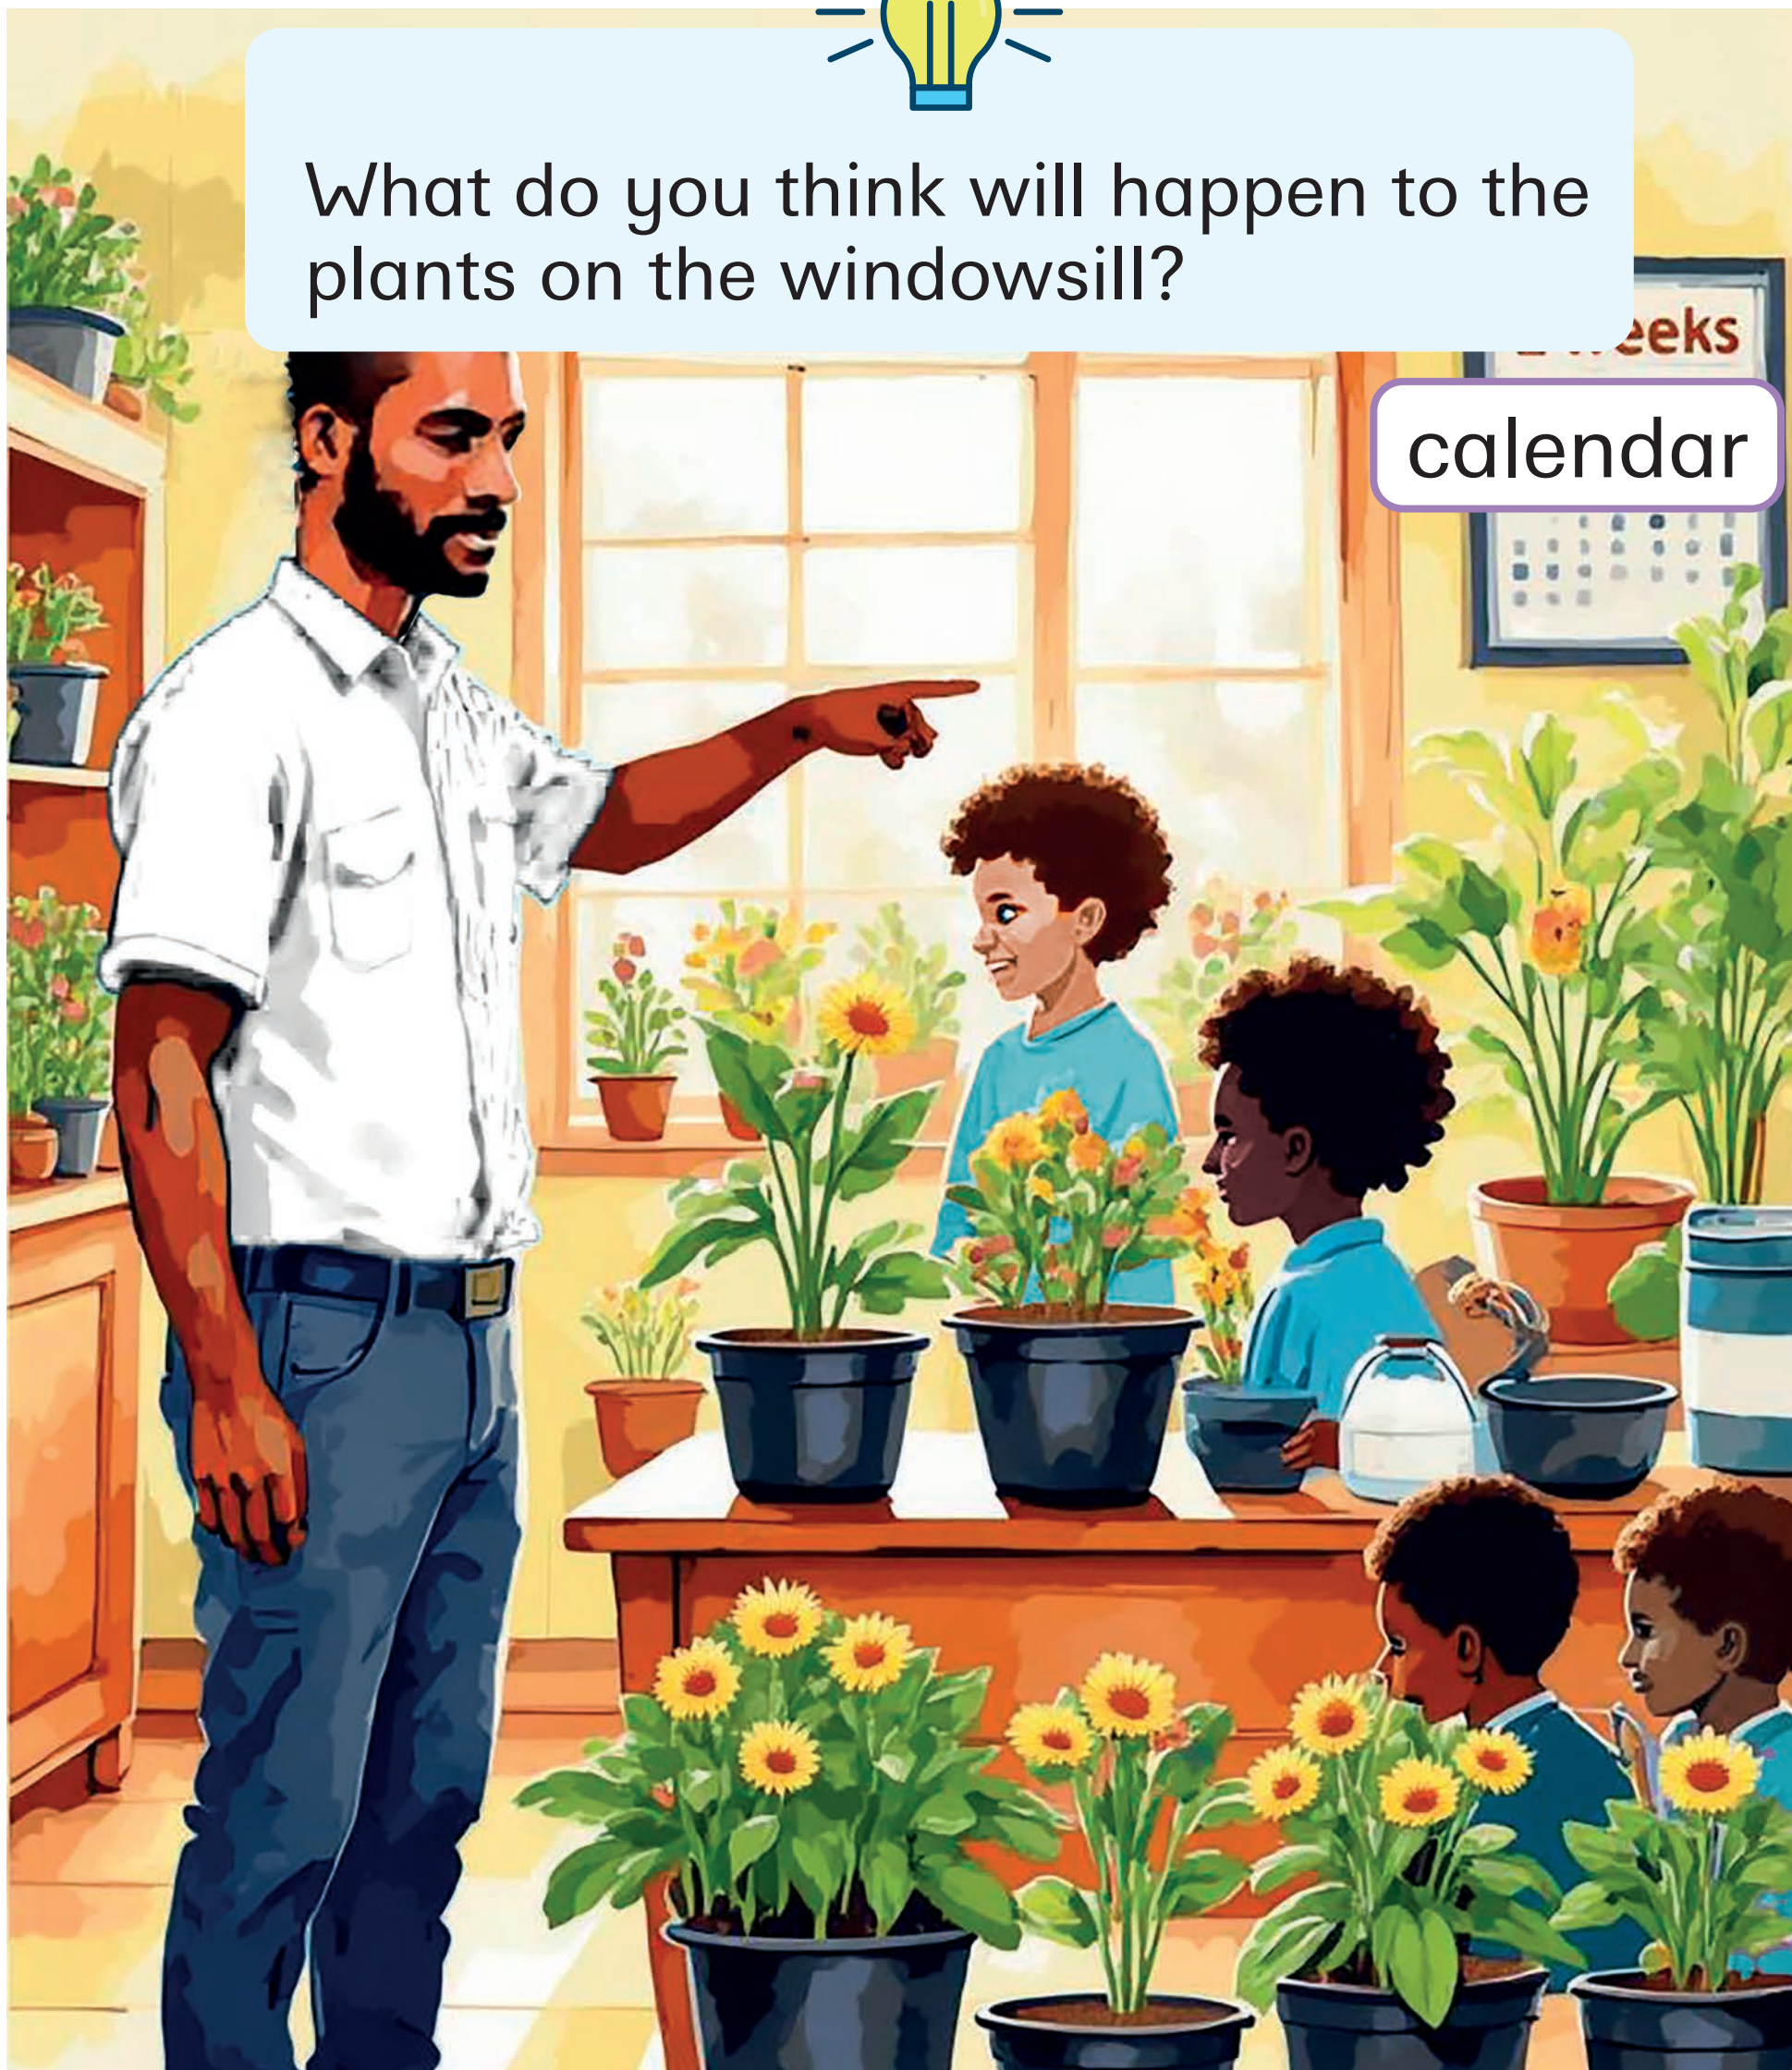

What did we learn about plants here?

This time, some plants will get sun and some will not. We water both plants. Some go on the bookcase and some go on the windowsill. We wait for two weeks.

What do you think will happen to the plants on the windowsill?

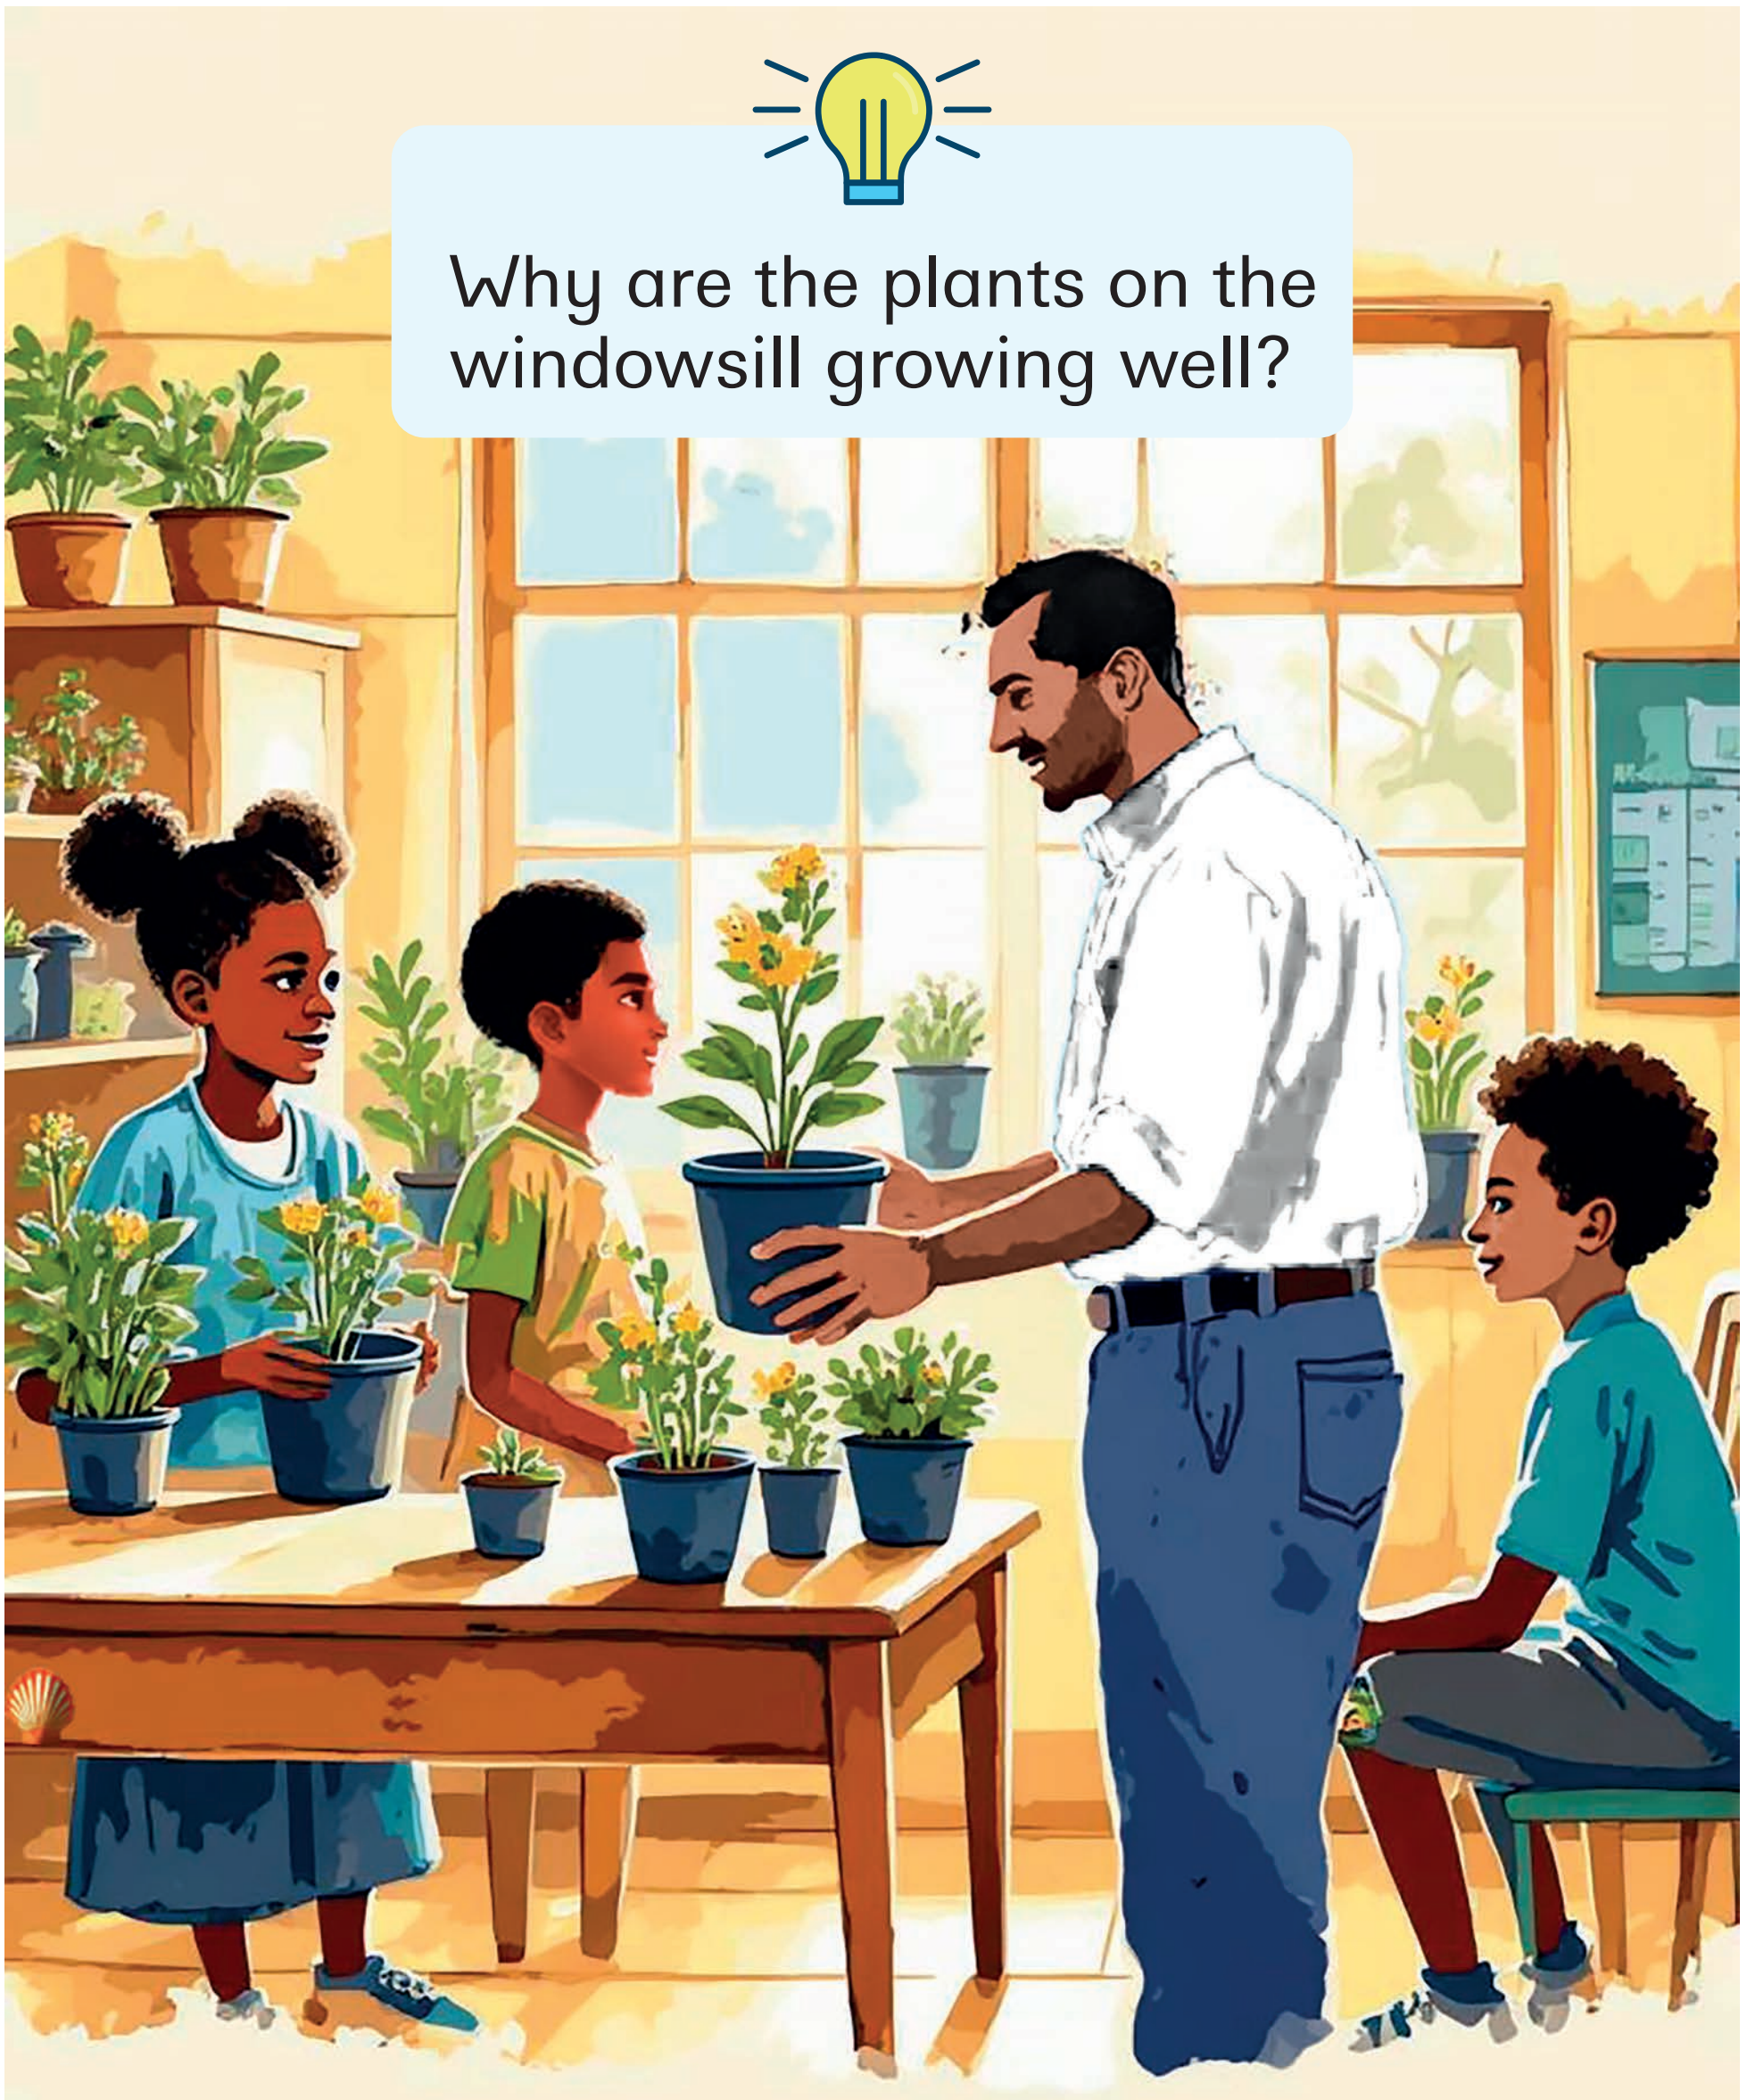

calendar

We check again. The plants near the window have green leaves. Some have flowers.

Why are the plants on the windowsill growing well?

Why are the leaves turning yellow?

The plants on the bookcase have yellow leaves.

Plants need sunlight and water to grow. We learn something new every day.

### Post-reading questions

1. What do plants need in order to grow?
2. Which words describe the learners: tired, proud or happy?
3. Why are plants so important?
